Experience

Web Developer / UX Engineer - Freelance (January 2007 - Present)

I have worked with a number of businesses in a variety of user experience and web developer roles. Worked with inhouse development teams, content management systems, custom development projects and social media consulting around the world.

Clients include; VTech Phones, ATT, Car Deal Expert, Adworkz Network, Healthport Inc, Amtrak CA, Life Center North, Forms Solutions, Classic Nation.

UX Engineer / Project Manager - Provolve Solutions, Spokane, WA (July 2008 - June 2010)

SAAS Web app for medical offices, software development

- Redesigned company branding and produced marketing material
- Simplified user interface with fresh design to match new branding
- Wireframes, User Workflows, design layouts, HTML layouts
- Liaison to client Business Analysts
- Project management of development team

“Steve is not afraid of a challenge and is a fast learner. Steve progressed during his time with us from doing web and user interface development to being a project manager on an \$800,000 project. Overall, Steve was an exemplary employee whom I would hire again in an instant.”

Shad Wheeler, President Provolve Solutions Inc.

Web Developer - Cohesion Communications, New Zealand (August 2007 - June 2008)

Web development and branding agency

- XHTML Layouts, including CSS, JS
- Search Engine Optimization (SEO)
- Client Training
- Quality Assurance including cross browser testing

“Steve is a highly skilled and dependable member of the Cohesion team who has impressed with his knowledge, willingness to take on extra responsibility and eagerness to learn and develop.”

Mark Liddle, Business Manager, Cohesion Communications Inc.
